

Skepticism of Prioritization

If
And
And
And
Then

choice is the *agency* involved join between judgment and outcome,
beauty disrupts priorities, and priorities are a subset of outcome,
the freedom to model is having the *agency* to choose which lines to wait in,
the meaning of life is waiting in lines gracefully,
the choice of your next line is the divine spark of what you will prioritize.

Proof:

Assume:

choice is the *agency* involved join between judgment and outcome,
beauty disrupts priorities, and priorities are a subset of outcome,
the freedom to model is having the *agency* to choose
which lines to wait in,
the meaning of life is waiting in lines gracefully.

(*Axiom of Choice* is biconditional with *Well-Order*)

(Immanuel Kant's: *Critique on Judgment*)

(<https://perrydime.com/philosophy.html>)

(Victor Frankl's: *Man's Search for Meaning*)

This implies:

Judgment is the distribution of intention and negligence by a judge or market.

(https://perrydime.com/20210312_Intention_Div_Negligence.pdf)

Because a line is a queue, and is in the domain of **manufacturing**,

(refinement of that which is made from "clay")

beauty of the queue will **change** the order the eventual priorities -

(according to Physics: the study of **change**)

this will occur even if the priorities end up in the same order as before the choice.

The networking of the associated methods/disciplines is dependent on the theatres of love and war –

According to Sun Tzu:

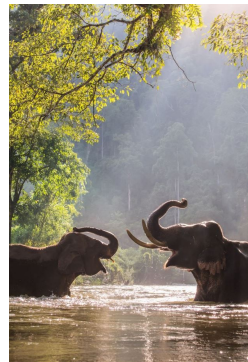

1. Morality
2. Heaven
3. Earth
4. Commander
5. Methods/Disciplines

This is mappable to:

within the domain of **manufacturing**.

Frankl's *Man's Search for Meaning* proves that suffering gracefully is the meaning of life; "waiting in line" is a form of suffering.

Karma Yoga:

Assumption:

Sacrifice brings forth the Rains

Rules:

Food depends on Rain

All Living Beings subsist on Food

Proof:

Rain not met

by sacrificially-prepared Soil and Seed
is Rain not Brought

Therefore,

the choice of your next line is the divine spark of what you will prioritize.
