What	<ul style="list-style-type: none"> <li>Semantic Algebra analysis on 2016 election</li> <li>Test <del>Algebra</del> hypothesis with comparison to 2024 election</li> </ul>
So What?	Preserve indigenous languages
Stakeholder	Neel

**Approach:** During my 2015-2017 news collection, I developed the theory that "Fake News" would transition to "Hearsay" with the pendulum swing.

### Formation:

- Hillary → Expression Based  
+ Hear, think, feel, saw  
X said Y
- Trump → Existence Based  
+ IS, has  
W has Z property

Fake News → Hearsay: the volatility in expression  
- Low Context society

## Execution:

This would be unspoken, as stating "hearsay" is the attribute of a person's expression is existence-based. Attacks on credibility would be the method for determining if information should not be considered "true." That a person's perspective came from a certain school, or exposure to ideas not alligned.

It's not about what you know  
or where you learned it  
It's about who you know  
and what you do with what you know  
smart is as smart does

I have 500K articles from 2015-2017, and will have 1.5M from 2023-2025. I plan to do an analysis to test this hypothesis. The objective is to follow through with the semantic algebra into a semantic calculus to resolve the original drive in developing Context.10

Identity	Jury Duty Post 35
What	<ul style="list-style-type: none"> <li>• What to do when called in for Jury Duty, again</li> <li>• I will prefer not to say why I'm not credible</li> </ul>
So What?	Civic Duty
Stakeholder	Grampa Jeff and I

**Approach:** A defendant worth their salt would wait until an noncredible verdict to pull the credibility card. I predicted a major defamation case would hit the U.S. to prepare for

**Formation:** self-defamation laws : Johnny Depp case.

- { < 35 not ethically developed
- > 35 not credible
- Avoid jury duty
- Even a jury of peers?
- Burden on the soul is too great

## Execution:

I was called in for jury duty in Tucson. The case was the 3rd DUI. The judge knew my grandpa Jeff. I was asked if I had any reasons I should no longer be chosen - in the box.

We stepped up to the judge, and I said: "I've worked with neurosurgeons; I believe a man is not ethically developed until he is 35; I am only 27; if I cannot be president, I should not judge... I mean jur."

The defendant said: "Do you think we should hold this man responsible for what he did before he was 35?" I said: "well it depends... that's a good question."

The judge called recess, came back, and said "Mr. Richards, you're off the case... thank you for your candor."

There was a 18yo female jury member saying: "I can't wait to judge this man."

Reminds me of Flannagan...

What	<ul style="list-style-type: none"> <li>• Earth is 18 galactic yrs</li> <li>• Align with celestial business rules</li> </ul>
So What?	Governing behavior is to align with celestial order ... are we help accountable?
Stakeholder	Danny Frank

**Approach:** The earth is 18 galactic years old.  
That is the age of celestial consent. As is above, so is below.

**Formation:**

- Rotations of sun around galaxy
- earth in galactic years
- age of consent
- universal developmental stage
  - + Not involved with galactic decision-making?
- Rules that permeate the universe

## Execution:

Don't fret over spilled milk. Those space travellers  
that came from the black hole in the center of our  
galaxy mostly did not survive. The ~~one~~ who made it to  
earth propagated. Do we fret over lost swimmers when the  
consent was to propagate?

Tear away that faltered rule  
this deep permutation  
that imparts the celestial business rules  
for the overall charity  
that ought to be handed to my Rabbi  
or that spilt meat in milk  
~~that~~ ought to be tested by a gentile  
rage against this joyous day  
when petty ~~things~~ claims are heard  
and demeanors - mis are indicated  
against those white knights  
that rove and beat our pulp  
and face flesh  
to bloody linen yacht shirts.

Identity	Mortgage: The God-sized Hole
What	<ul style="list-style-type: none"> <li>• Shallow description of issue with renter's economy</li> <li>• <u>Adaptation</u> as a military strategy needs to shift to <u>survivality</u></li> </ul>
So What?	sets context for the quibbles as tactical tools, as survivality as strategy.
Stakeholder	Posterity

**Approach:** My sabbatical to the east coast metropolis had me sensitive to the owner-manager dichotomy. Our renter's economy will create a god-sized hole where the mortgage used to be.

### Formation:

- What a mortgage provides
  - + maintenance
  - + pride of ownership
  - + privacy
  - + family
  - + Developmental Stage in Community
- Antisocial to bring up "equity" with
  - respect to ownership
  - + portion of rent going towards equity
- Systemic limitations on credit
  - + "grammar's grammar" may not had had credit
  - + Cosign modern loans

## Execution:

The mortgage is being removed from the typical portfolio. This manifests as ~~the~~ car and students payments as the largest asset.

Money is wasted on the old

Love is wasted on the young

What will fill this god-sized hole? In capitalism, the mortgage represented much more than just an initial liability.

The owner-~~many~~ manager divide gets deeper and deeper as folks remain renters for their whole lives.

It can be read ~~in~~ in Clausewitz documents that Russian military strategy is psychological warfare (i.e. remove the nuclear family). U.S. strategy is to adapt. Can one adapt to psychological warfare? Ought there to be a ~~more~~ less damaging strategy to the roots?

The Canadian constitution has the family as the root unit; this is different than the U.S. individual as the root unit. Perhaps the U.S. can better respond to the nuclear family attacks than the country whose base/root unit is the family?

Adapt should transition to → Survive with Vitality

What	<ul style="list-style-type: none"> <li>• Interdependence of</li> <li>• Pursuit of that which we pursue</li> </ul>
So What?	Wisdom
Stakeholder	Kelle

**Approach:** Understanding Ikigai is critical... across multiple ~~challenges~~ interdependencies is the wisdom of the matter.

### Formation:

What you love is far from what you are paid for  
as many will love that as well  
and we are trusted with a portion  
of our resources  
What you are good at is far from what the world needs  
as many are good at that

Dream #: 84

## Execution:

We meet and share our ikigai  
I imagine ways to piece  
your ikigai with mine  
through, what is back between the two  
to set the moment  
so that we may jingle  
~~on the Jaki's Keychain~~  
on Jaki Keychain  
not tonight  
you shall not have my key  
and we shared diets  
our commonalities shown / how  
but I got the ick  
as I am judged on your inner rot  
as I want good favor with men  
for that hierarchy  
insulates me from how  
women do not worry  
damn socioeconomics  
I don't just want to buy you  
cause I don't think I can escape  
you and yours  
in this social fabric
